Preface

The intention of this checklist is to provide those with an interest in John Drinkwater with the tools to understand and appreciate his large poetic and other literary output, by listing all the items published in his life-time (and shortly afterwards). John Drinkwater had his finger in many pies, and usually wrote something about or for them. Consequently his bibliography is extremely complex and difficult to construct, and there may be many published items that have not been traced. This is a working document, and if you would like to help make it a definitive list, please send any amendments and additions to me at jeff@jeffcooper.me.uk. They will be incorporated in the list and acknowledged.

The format of the checklist is chronological, in order of first publication in periodical and book form. It should be borne in mind that there is a bibliographical hierarchy: contributions to periodicals, then contributions to books, and finally principal books. Therefore, if a poem is published in a book before publication in a periodical, the periodical is not listed separately, whereas if it is published in a periodical before publication as a contribution to a book, then in a principal book, it will be listed separately on each occasion.

Principal books are depicted in bold italic capitals, contributions to books are in bold italic upper-lower case letters, and periodicals are in italics. The later publication details after periodical publication are noted only for the next collected edition. Because there are so many items where the exact date of publication is still to be ascertained, uncertain or incomplete dates are listed after established dates, depicted as the year followed by three dots. All the text of this checklist may be searched using the search facilities in Adobe Reader (Ctrl + F).

Some additions and corrections have been made for the 2016 reprint, and a few items have been re-numbered.

Anyone working on the bibliography of Drinkwater must be beholden to the work done by Michael Pearce, and to his descriptive bibliography published in 1977, and I freely acknowledge his contribution to this checklist. I should also like to acknowledge help given by Philip Bishop, Michael Christie, Claire Cochrane, Susie Self, and Richard Simkin.
